

MANGALAM CEMENT LIMITED

ENERGY POLICY

Mangalam Cement Limited, Morak plant is committed to conserve set targets, review and continually improve the use of energy. MCL is committed to improve its energy performance by:

- Reduce Specific Energy Consumption through efficient use of energy use & performance in areas of significance.
- Establish a framework for setting, monitoring & reviewing energy objectives and targets. Commit to allocate necessary resources and ensure availability of relevant information for use. We will review progress against targets periodically.
- Adhere to applicable laws and regulations, relevant legal and other obligations with respect to energy.
- Set energy performance indicators and establish a clear reporting structure with defined responsibilities.
- Constantly upgrade technology and improve efficiency of equipment / process and consider energy performance as one of criteria for selection & procurement of equipment, services & design.
- Encourage energy awareness amongst all relevant functions through policy roll out, internal communication and training as necessary.
- Explore economically justifiable and technically feasible clean source of energy.
- Conduct periodical energy audit.
